

# MHUB AUDIO (6x4)

Product code: MHUBAUDIO64

MHUB AUDIO is a 6x4 matrix-amp with DSP EQ, dedicated sub outs and integrated 110 watt amplifiers. Designed and built in Worcestershire, HDA's first endeavour into the world of multiroom audio and high quality sound. Designed to be an easy and seamless companion to any MHUB PRO HDMI distribution system, and which integrates automatically within uControl. Enabling installers to 'do more with less hardware', the introduction of the MHUB AUDIO means it is now possible to create a total whole-home video, audio and amplification solution entirely under the HDA brand, simple to spec, simple to install and simple to control.
