Bringing it all together

POWER MANAGERS

Power Fluctuates, We Don't

Home Theater Power Managers

Protect your expensive electronic equipment from damage caused by power surges and under/over voltage conditions. Today most home electronics incorporate sensitive microprocessors that only function correctly when they receive stable current at the right voltage. These devices are susceptible to damage caused by power surges, spikes and brown out conditions. Every time your refrigerator or air conditioner turns on you risk losing your valuable electronics. Tributaries Power Managers are engineered with the latest electronics to protect your valuable equipment while simultaneously improving the performance of a system by reducing electronics noise. All of Tributaries Power Managers are built using premium parts and advanced manufacturing techniques ensuring performance and reliability.

Noise is everywhere whether it is Electromagnetic or Radio Frequency Interference, this noise can be severe enough to adversely affect picture and sound quality in home theater equipment. By incorporating filters in your power source you can rest assured that your equipment will perform at its best. Tributaries incorporates isolated filter banks into the T100/T200 to eliminate the interaction between connected components leaving your system with crystal clean audio and video.

Tributaries offers 3 In-wall solutions that protect your investment while making your installation clean and safe. You can count on Tributaries to bring you the best filtering and surge suppression products to protect your investment. Trust Tributaries, Power Fluctuates, we don't.

● PWRC-T200: 13 Outlet Power Manager

● FEATURES

- 120VAC, 15A, 50/60Hz
- Always-on, switched and delayed outlets
- 5400 joules of surge suppression
- Over/under voltage protection
- Auto re-settable after power outages
- 5 isolated filter banks
- 3 DSS/CATV surge protected lines
- Tele/Data surge protected line
- 12 volt DC triggering
- Front & rear USB outlets with USB light
- Dimmable front panel
- 2U rack mountable
- 5 UL* listings
- \$25,000 Connected Equipment Warranty

Specifications are available at our Website www.tributariescable.com

● PWRC-T100: 9 Outlet Power Manager

● FEATURES

- 120VAC, 15A, 50/60Hz
- Always-on, switched and delayed outlets
- 4320 joules of surge suppression
- Over/under voltage protection
- Auto re-settable after power outages
- 3 isolated filter banks
- 2 DSS/CATV surge protected lines
- Tele/Data surge protected line
- 12 volt DC triggering
- Front & rear USB outlets with USB light
- Dimmable front panel
- 1U rack mountable
- 5 UL* listings
- \$25,000 Connected Equipment Warranty

● PWRC-T10X: 10 Outlet Power Extension Bar

● FEATURES

- 120VAC, 15A, 50/60Hz
- 3240 joules of surge suppression
- Filtered power
- 12 volt DC triggering
- 1U rack mountable
- Easily mounts under counters
- Outlet spaced for bulky transformers
- 6 outlets on front panel and 4 on rear
- 4 outlets on back panel
- 3 UL* listings
- Lifetime Limited Warranty

Specifications are available at our Website www.tributariescable.com

220-250VAC International Use

● PWRC-T101-INT: 11 Outlet Power Manager

● FEATURES

- 220-250VAC, 10A, 50Hz
- Always-on, switched and delayed outlets
- 3672 joules of surge suppression
- Filtered Power
- Retractable lights with 3-way switching
- 1U rack mountable
- CE approved

RoHS
compliant

To provide the highest degree of safety precautions, 100% of Tributaries products are RoHS compliant. The RoHS Directive stands for "the restriction of the use of certain hazardous substances in electrical and electronic equipment". This Directive bans new electrical and electronic equipment containing more than agreed levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants. All Tributaries Power Strips meet or exceed the requirements of California SB20; The Electronic Waste Recycling Act of 2003.
